If Kissing the Pink's name appears like sexual innuendo, it is because it really is. The music group eventually transformed their appellation towards the humble KTP. Frequently chastised with the U.K. press within the '80s, Kissing the Pink's music isn't as suggestive as their name.

Kissing the Pink's debut album, Naked, followed in the grand tradition of eccentric art-school collectives like Deaf School-- pulling influences (and members) from all over the map, without a care for fashionability or marketability and, ultimately, giving rise to an album that sounds little like anything else created before or since.

Great 80's pop record....more commercial sounds than Kissing the Pink started with. Not the same darker mood than Big Man Restless but fun and uplifting pop songs like One Step and Never too late. And the title track was the biggest hit and offers a return to sound from the beginning of KTP's career.

[THE LAST FILM Lyrics - KISSING THE PINK | eLyrics.net](#)

If Kissing the Pink's name sounds like sexual innuendo, it's because it is. The band eventually changed their appellation to the modest KTP. Often chastised by the U.K. press in the '80s, Kissing the Pink's music is not as suggestive as their name. The group's hybrid of soul, electronic experimentation, and synth-pop should've landed them hits when that sound was in flavor, but the band merely ...

[Sugarlands - Kissing the Pink | Songs, Reviews, Credits ...](#)

Kissing the Pink's Certain Things Are Likely is generally considered by KTP fans to be the group's weakest LP. And they're right. Certain Things Are Likely sounds as if the band was trying hard to produce a hit. Place the blame on KTP's label, Magnet. The company wanted KTP to sell some records, and Certain Things Are Likely shaves the group's artiness and subtle charms for faceless dance-rock.
